Support Fair And Clean Elections!**

Dear

I am convinced that how lawmakers get money to run their campaigns determines how they spend our tax dollars. Our people (especially the poor), our economy, and environment suffer because of massive tax-breaks and subsidies to powerful special interest contributors. That is why I urge you to support Fair and Clean Elections (public funding) in West Virginia.

Public financing will allow you to spend more time on issues of concern to voters in your district, enjoy the freedom of voting your conscience, and avoid the public perception that you've been unduly influenced by special interests.
